

Using UASuccess

Watch our videos on how to setup office hours in UASuccess.

What happens when I raise a flag?

When you raise a flag, UASuccess will let you know if the student can see the flag or if they will receive an email. Most flags do send an email notification to the student.

What is ASOP?

The [Academic Support and Outreach Programs](#) (ASOP) team in Student Success partners with academic advising units, career services, and retention specialists across campus in order to employ an individualized support model to build workflows that trigger different actions depending on the flag level, number of total UASuccess alerts, and UASuccess dashboard information on each student.

What do students see?

Sharing your UASuccess “direct link” with students takes them directly to your profile to schedule an appointment.

Without a direct link, when students login they are taken to “My Success Network.” They use the left navigation menu, select “Courses,” and can schedule with instructors from that screen.

I have a specific question that isn't answered here. What can I do?
